

LENTRY™

GENERATOR + LIGHT + LEGS

The Bright, Portable, Efficient Solution to Your Scene Lighting & Power Challenges.

Self-contained, all-terrain generator and light systems turn night into day no matter where you answer the call.

Photo 1: A LENTRY unit instantly improves scene safety and aids rescue response.

Photo 2: A LENTRY unit telescopes up to aim through a window, lighting the interior during rescue training. (This is a detail of Photo 3.)

Photo 3: The whole scene is illuminated by a LENTRY XT unit. Another unit is visible in the background, aimed through a window.

Complete LENTRY Systems include:

- 1 or 2 Telescoping Lights (also called polelights)
- Super-Quiet Inverter Generator
- Single or Dual Light Base (holds the light/s)
- Legs (generator-specific; also called a frame)

Overview of Benefits

- ✦ Outward curving Legs stand solidly on steep, rocky, uneven terrain
- ✦ Generator is level and raised above sand, snow, water or debris, and controls are lifted up within easy reach
- ✦ Computer-safe power, low emissions, excellent fuel economy, super-quiet operation and reliability
- ✦ Lights telescope and articulate, aiming in any direction without repositioning the whole system
- ✦ Robust, heavy-duty steel frames take abuse and are guaranteed not to bend or break
- ✦ Run times, with light(s) on, vary from 4 hours to over 13 hours per tank (0.6–1.1 gallon tanks)
- ✦ Light output from 25,000 to 50,000 lumens
- ✦ Simple designs for reliability, ease-of-operation, easy field service and maintenance
- ✦ Legs and lights retract for compact storage
- ✦ Polelights separate from the Light Base for easy transport and storage

Units with extra tall "XT" Polelights stand approximately 8.5 feet tall

Units with standard height Polelights stand about 4.5 feet tall

Dual units have 2 separate Polelights

LENTRY Lights and Legs add extreme versatility and functionality to tried-and-true Honda® and Baldor® generators. There are 17 different complete LENTRY units available. Mix and match generators and lights to create the ideal combination of power and light for your needs.

Components may be purchased separately to retrofit existing Honda EU1000i, Honda EU2000i, and Baldor PC17Ri generators. See photos of LENTRY units in action, download and print specs, request pricing, and more online at ventry.com.
