

LENTRY Systems now available with “OMG Bright” LEDs

Ventry Solutions, Inc. is proud to collaborate with Akron Brass Company (ABC) and Fire Research Corporation (FRC) to offer SceneStar™ and Spectra LEDs on All-Terrain LENTRY® Generator & Light Systems.

Fig 1

Both LEDs offer...

- Bright white light very close to natural sunlight
- 20,000 lumens
- 120V AC, 240W, 2 amp
- Long life rating of 50,000 hours (That's 5.7 years of continuous use!)
- High efficiency in output versus wattage
- Low operating temperatures
- Combination of flood and spot lighting
- Instant-on at full intensity
- Maintenance free
- Solid state electronics
- Built in the USA
- Rugged construction

ABC SceneStar LED

- 48 LEDs for spot and flood pattern in one light.
- Dual ergonomic handles for easy aiming
- Engineered optical reflector for consistent, overall illumination with integrated spot light
- Durable aluminum housing with stainless steel hardware and powder coated finish
- Optimized thermal management with protective cover
- Tempered glass front
- Wide range of articulation

Fig 3

Fig 4

FRC Spectra LED

- 60 LEDs total. 48 LEDs on top and bottom rows illuminate the work area (flood lighting) while 12 on the middle row provide focused spot lighting (distance).
- Lens and optics are molded together, for excellent work area and distance lighting, with wide, uniform, far-reaching illumination.
- Innovative cooling fins incorporated into super-slim head (visible from above, as in figure 6)
- Lamphead is removable from the pole (tools required), if necessary, which can save on shipping

Ideal for commercial and emergency use, **LENTRY Generator & Light Systems** are bright, portable, and all-terrain. They turn night into day for hours at a time, without cords or batteries, and can be moved and set up with one person.

Complete units include a **LENTRY Frame** (legs), a generator, and one or more high-output telescoping polelights of various heights. With legs and lights fully extended, **LENTRY units** with “standard height” polelights stand about 4.5 feet tall; those with “XT height” polelights stand 8.5 to 9 ft tall. Custom heights available, up to 13 feet total height.

LENTRY Systems Price Sheet provided upon request. Already have a generator? Just add the **legs, light base and polelight(s)**.

Fig 8

Figures 1-4 show LENTRY Units with ABC LEDs; figures 5-8 have FRC LEDs.
