

Honeywell EV1 Helmets

Honeywell

**Head Protection...
Redefined**

HONEYWELL EV1 HELMETS

ARE YOU READY FOR THE REVOLUTION...

The new Honeywell EV1 helmets – yet another milestone in our history of championing innovation and bringing revolutionary products to the fire service – driven by the needs and voice of firefighters like you.

The progressive interface and cutting-edge features of EV1 helmets offer unmatched performance with a sturdy, sleek, lightweight design that customizes fit for unparalleled comfort and superior functionality.

All EV1 helmets feature a low-profile design with patented internal springloaded EZ Touch face and eye protection. Standard features include leather headband and ratchet assembly with hook and loop – so that adjusting can be done on the go.

EV1 Advantages

Low Profile Design

Low-profile design combined with lighter-weight materials provides superior comfort, optimal fit, and improved balance.

Low Profile Design

Internal EZ Touch Face and Eye Protection

Proprietary EZ Touch feature allows for one-touch deployment of your face and eye protection. No fuss. No hassle. Stows internally and provides adjustment to fit your face perfectly. Features a safety lock and a cushioned nose guard. EZ Touch face and eye protection is released at the touch of a finger and is the only solution for quick one-hand deployment.

Internal EZ Touch Face and Eye Protection

Fully Loaded Is Our Standard

Unlike the competition's helmets, our standard models include leather headband and ratchet covers and an easy-to-adjust hook and loop headband system.

Our Standard Is a Deluxe Model

Structural Traditional Helmet

Certified to NFPA 1971
